

THE 2010 NEW GENERATION

After more than 20 years of industry firsts, we figured 2010 would be a good year to "up the ante" again. So we looked at any and every way to make Haas VMCs better, and then made one last change:
We added more value.

VERTICAL MACHINING CENTERS

IMPROVED: motion control
coolant containment • chip evacuation
CNC interface • ergonomics • serviceability

released for active duty: 01.01.10

Haas Automation, Inc.

800.331.6746 • see them online @ www.HaasCNC.com

Specifications subject to change without notice. Not responsible for typographical errors. Machines shown with optional equipment.

THE ALL-NEW 2010 DT-1 DRILL/TAP CENTER

DT-1 Starting at
\$44,995.*
www.HaasCNC.com 

Our new drill/tap machine
will stay put on your shop floor,
but it can still move at 1g of acceleration. (1g = 32 ft/s²)

released for active duty: 01.01.10

Haas Automation, Inc.

THE ALL-NEW 2010

ST-30 TURNING CENTER

The all-new, 2010 ST-30 turning center is the culmination of 15 years of continuous development, and it offers the most performance for the money – the best value – of any turning center on the market today.

more rigidity.
more tools.
more power . . . more value.

released for active duty: 01.01.10
